

TEAMS 2011 V2

Please see below the final lists of teams and team coaches for 2011. The teams were primarily allocated purely on the basis of which team a swimmer was in during 2010 but some swimmers have chosen to change from a competitive team to the combo and this has been agreed. There have also been changes in some of the coaches allocated to the teams. All skill levels for competitive teams must be gained by the cut off of July 2nd (this will be the date of the final skill assessment in SE Region). Selection for teams and the combo will take place on Sunday July 3rd and WILL take into consideration attitude of swimmer, attendance at training sessions as well as performance on the night. Any swimmer not selected on this date will not be training with a team for the remainder of the year although we will still encourage everyone to attend Garrison sessions for extra stamina training and possibly to start training for the Christmas show.
